PLAN OF COUNTERS

SECTION XX

NOTE:

Along with Single Window Concept, we propose to standardize the interiors along with uniform color code in all our branches over a period of time. The concept of Model Branch Concept is detailed below:

- The model branch shall have uniform /standardized color code and compatible to RO & branch requirement giving emphasis on the category of branch such as Metro, Urban, Semi Urban & Rural Centers
- Materials selected should be available throughout India
- Choice of materials should be available (minimum three) with cost variance +/- 10%
- The interiors shall be designed in blue shades
- The counter shall have granite in their top surfaces.

RO to discuss with RCC in-charge & RSO and should ensure that adequate UPS & Raw power points made available for the PC, UV Lamp, Counting machine, fan etc ..

RO to further ensure that Cashier cabin is provided with full height partition and 3 UPS & 3 raw power connection. And that all the SWS counters are provided with half height partition and 3 UPS 7 3 raw power connections.
